Complex Cases. Clear Solutions.

HINDSIGHT 2020

March 15-19 | 2021

11TH Annual Global Implantology Week

ZIMMER BIOMET DENTAL *and* NEW YORK COLLEGE of DENTISTRY

ARE PROUD TO ANNOUNCE THE...

11TH Annual Global Implantology Week

Gain Clarity and Vision for the Future

Zimmer Biomet Dental and NYU College of Dentistry invite you to join us virtually for this week-long event.

The 11-year collaboration with NYU College of Dentistry has allowed us to produce some of the most innovative and revolutionary topics presented in the field of dental implant therapy. The course is structured to give you clarity of vision on complex cases and insight into what the future will hold within our industry. Our agenda will open your eyes to a simplified approach to these complex topics: Principles of Tissue Augmentation (hard and soft), Interdisciplinary Approaches, Immediacy, Innovative Treatment Options for Complex Rehabilitations and A Minimally Invasive Approach to Solve Complex Cases. The Future is Now!

We truly hope you take advantage of this unique educational opportunity, and we look forward to welcoming you virtually in March 2021. We invite you to share our vision.

Please don't miss out on this annual event.
